

Maria Antonietta Capotondi

University of Colorado/CIRES and NOAA/PSL
Boulder, CO, 80305
Tel. 303-497-6105, Fax: 303-497-7013
E-mail: Antonietta.Capotondi@noaa.gov

EDUCATION:

- Ph.D. Physical Oceanography, MIT-WHOI Joint Program, Cambridge, MA, 1993
- B.S. Physics, University of Pisa, Pisa, Italy, 1981

PROFESSIONAL EXPERIENCE:

University of Colorado/CIRES and NOAA/PSL, Boulder, CO

- Research Scientist III, May 2016 – present
- Research Scientist II, October 1998 – present

University of Colorado/Program in Atmospheric and Oceanic Sciences (PAOS), Boulder, CO

- Research Associate (50% appointment), May 1996 – October

National Center for Atmospheric Research, Climate and Global Dynamics Division, Boulder, CO

- Visiting Scientist (50% appointment) May 1996 – October 1998
- Visiting Scientist, May 1995 – May 1996

National Center for Atmospheric Research, Advanced Study Program, Boulder, CO

- Postdoctoral Research Scientist, April 1993 – April 1995
- Graduate Research Assistant, April 1990 – April 1992

Massachusetts Institute of Technology, Cambridge, MA

- 9/87–2/93: Graduate Research Assistant, September 1987 – February 1993

IBM, Kingston, NY

- Postdoctoral Fellow, May 1985 – May 1986

Company Snamprogetti, Fano, Italy

- 1/83–8/87: Physical Oceanographer, January 1983 – August 1987

Teaching

- Invited Student speaker, Scripps Institution of Oceanography, La Jolla, CA, January 2021(virtual, postponed from May 2020)
- Lecturer, 3rd Summer School on “Theory, Mechanisms and Hierarchical Modeling of Climate Dynamics: Tropical Oceans, ENSO, and their Teleconnections” August 3-14, 2020, Trieste, Italy (postponed to 2021 or 2022).
- Lecturer, Joint UNESCO/IOC and Ocean Dynamics and Climate (ODC) center Summer School on “Climate Dynamics and Air-Sea Interaction”, Qingdao, China, 17-28 June, 2019

- Lecturer, Program on Climate Change Summer Institute, Friday Harbor, WA, 11 September, 2013.

Student Mentoring and Ph.D. Committee Member

- Mentor, “Mentoring Physical Oceanography Women to Increase Retention” (MPOWIR) Program (2016-present)
- Postdoctoral Co-Adviser, Dr. Nicola Maher, CIRES Visiting Fellow (2020-2022)
- Ph.D. Student Co-Adviser, Jacopo Sala, ATOC (2020-2023)

Student Ph.D. Committees:

- Shayne McGregor, Macquarie University, Sydney, Australia (PhD 2009)
- Samantha Stevenson, University of Colorado, Boulder, CO (PhD 2011)
- Kobi Mosquera, University of Toulouse, Toulouse, France (PhD 2012)
- Pamela Grothe, Georgia Institute of Technology, Atlanta, GA (PhD 2017)
- Giovanni Liguori, Georgia Institute of Technology, Atlanta, GA (PhD 2018)
- Aude Carreric, University of Toulouse, Toulouse, France (PhD 2019)
- Danielle Lemmon, University of Colorado, Boulder, CO (PhD 2020)
- Youngji Joh, Georgia Institute of Technology, Atlanta, GA (PhD 2020)

Leadership

- Co-Chair, World Climate Research Program CLIVAR Pacific Region Panel (2019-present)
- Co-Chair, PICES/CLIVAR Working Group on “Climate and Ecosystem Predictability” (2017-present)
- Lead, NOAA/CPO/MAPP Marine Prediction Task Force (2017-2020)
- Co-Chair, US CLIVAR Working Group on “ENSO Diversity” (2012-2016)

Service to National and International Communities

- Member, World Climate Research Program (WCRP) committee for the development of a scientific plan for the WCRP Lighthouse Activities (LHAs) (2020-)
- Member, American Meteorological Society (AMS) Climate Variability and Change (CVC) committee (2020-2023).

- Member, US CLIVAR Process Study and Model Improvement (PSMI) Panel, (2019-2022).
- Member, CIRES Member Council (2016-present)
- Member, CLIVAR Pacific Regional Panel (2016-2019).
- Member, US CLIVAR Phenomena, Observations and Synthesis Panel (2010-2015)
- Reviewer, Journal of Climate, Journal of Geophysical Research (Oceans), Geophysical Research Letters, Journal of Physical Oceanography, Nature Climate Change, Nature Communications, Nature Geoscience, Scientific Reports, Science, Environmental Research Letters, Atmospheric Science Letters, U.S. Department of Energy, National Science Foundation, NOAA Climate Program Office, French National Research Agency (ANR)

Organizational Activities

- Proposer, and co-Organizer, Special collection on “Advancing prediction of coastal marine ecosystems” in AGU Geophysical Research Letters and Journal of Geophysical Research – Oceans, June 2020-May 2021.
- Co-Convener, “El Niño Southern Oscillation in a Changing Climate” AGU Fall Meeting, December 1-17, 2020 (Virtual).
- Co-organizer, 3rd Summer School on “Theory, Mechanisms and Hierarchical Modeling of Climate Dynamics: Tropical Oceans, ENSO, and their Teleconnections” August 3-14, 2020, Trieste, Italy (postponed to 2021 or 2022).
- Co-Convener, Session on “ENSO: Dynamics, Predictability and Modelling”, EGU 2020
- Co-Convener, Session A054, “Decadal Climate Variability: Mechanisms, Predictability and Prediction”, AGU Fall Meeting 2019, San Francisco, CA.
- Co-Organizer, Special Issue on “North Pacific Climate and Ecosystem Predictability on Seasonal-to-Decadal timescales” in *Frontiers in Marine Science*.
- Co-Organizer, 14th CLIVAR Pacific Region Panel Meeting in conjunction with PICES meeting, Victoria, BC, Canada, October 19, 2019
- Organizer, Joint Workshop between CLIVAR Pacific Region Panel and PICES Working Group 40 on “Climate and Ecosystem Predictability”, Victoria, BC, Canada, October 20, 2019.
- Co-Organizer, Workshop on “Towards an Integrated Approach to Understanding Ecosystem Predictability in the North Pacific”, Qingdao, China, June 20-22.
- Co-Organizer, Workshop on “Atmospheric Convection and Air-Sea Interactions over the Tropical Oceans”, May 7-9, Boulder, CO.

- Co-Convener, “ENSO: Dynamics, Predictability and Modelling”, EGU 2019.
- Co-Organizer, CLIVAR Pacific Regional Panel workshop on “Tropical Pacific Decadal Variability”, Paris, France, April 1-5, 2019.
- Co-Organizer, IV International Conference on El Niño Southern Oscillation (ENSO), Guayaquil, Ecuador, October 16-18, 2018.
- Co-Convener, “El Niño Southern Oscillation (ENSO) Diversity, Predictability, and Impacts”, Ocean Sciences Meeting 2018, Portland OR.
- Co-Convener, Open session on Ocean Circulation, European Geophysical Union general Assembly 2017, Vienna, Austria.
- Co-Convener, “ENSO dynamics, observations, and Predictability, AGU Fall Meeting 2016, San Francisco, CA.
- Co-Convener, Open session on Ocean Circulation, European Geophysical Union general Assembly 2016, Vienna, Austria.
- Convener, session on “El Niño Southern Oscillation (ENSO) diversity in a changing climate”, Ocean Sciences meeting 2016, New Orleans, LA.
- Organizer, US CLIVAR workshop on ENSO Diversity, February 6-8, 2013 Boulder, CO
- Convener, Session on “The El Niño/Southern Oscillation continuum”, AGU Fall Meeting 2012

Proposal Review Panels

- NASA Physical Oceanography (2018)
- DOE Regional Global Climate Modeling (2017)
- NOAA/CPO Modeling, Analysis, Prediction and Projections (2016)
- NSF Physical Oceanography (2015)
- DOE Regional Global Climate Modeling (2014)
- DOE Regional Global Climate Modeling (2010)

Editorship

- Guest Editor, Special Issue on “North Pacific Climate and Ecosystem Predictability on Seasonal-to-Decadal timescales” in *Frontiers in Marine Science*, 21 March 2020 – 16 January 2021.
- Guest Editor, Special Collection on ENSO Diversity in *Climate Dynamics*, October 1, 2015-March 31, 2016.

- Guest Editor, US CLIVAR *Variations*, Special Issue on ENSO Diversity, Summer 2013.

Proposals Awarded

- 2021-2024, Co-Principal Investigator, NASA Physical Oceanography Program, “*Variability, Trends, and Spatial Distribution of Pacific Ocean Heat Content from Large-Scale Satellite and in-situ Observations*”, PI: Donata Giglio, University of Colorado, ATOC.
- 2020-2023, Principal Investigator, NOAA/CPO/MAPP, “*Mechanisms of US West Coast Climate Variability and Change in Observations and Models*”,
- 2020-2023, Principal Investigator, NOAA/CPO/CVP, “*Oceanic Mechanisms of Tropical Pacific Climate Variability Involving the Subtropical-Tropical Cells (STCs)*”.
- 2020-2021, Principal Investigator, CIRES IRP, “*Can Linear Inverse Models (LIMs) Predict Ocean Biogeochemistry?*”.
- 2017-2020, Co-Principal Investigator, NOAA/CPO/MAPP, “*Understanding and Quantifying the Predictability of Marine Ecosystem Drivers in the California Current System*”, PI: Art Miller, Scripps.
- 2015-2018, Principal Investigator, NASA Physical Oceanography Program, “*Precursors and dynamics of ENSO events from 25 years of climate-quality satellite ocean observations*”.
- 2008-2010, Principal Investigator, NSF, “*Collaborative research: Climate Variability and change in the U.S. GLOBEC regions as simulated by the IPCC climate models: Ecosystem implications*”.
- 2009-2011, Principal Investigator, NSF, “*Tropical Pacific decadal variability and its impacts on the atmosphere in climate models*”.
- 2007-2008, Principal Investigator, NOAA Climate and Global Change Program [Drought in Coupled Models (DRICOMP) program], “*Decade-long droughts in the western U.S. and their connection with tropical Pacific decadal variability*”.
- 2005-2008, Principal Investigator, NSF, “*Collaborative research: Dynamics of ocean climate changes in the Gulf of Alaska*”.
- 2001-2003, Principal Investigator, NOAA Climate and Global Change Program, “*Mechanisms of decadal variability in the tropical Pacific*”.
